

head lines I saw my picture.
One of those terrible things
they took in the garden.

Willie had saved the
papers for me & I think I
will include the clippings so
you can see what they are.

You can imagine how
angry & outraged I feel.

A report like this from
the rounds & of course some
believe it.

It is possible or wise to
make the Horn News print

Hall Mills-105.7 - correspondence - 1925.12.16 -

New Brunswick, N.J.

Dec. 16th
1925

Dear Mr. Pfeiffer -

So you remember my
telling you the other day
that the Horn News had
reported that I had married
Laurie Cooper?

When I came home last
evening from Cambridge
I found that the whole thing
had been published out,
as you can imagine, unpleasant

a denial? If a denial should be published is it possible to make the paper state that it published this report knowing it to be untrue? They had telephoned to me & I had denied it some weeks ago, & since then some members of my family had also denied it, & then ~~in spite of~~ all this the report is published.

I am angry & hurt & have all sorts of other outraged feelings.

I am sending this off so that you may get it at once & let me know if anything should be done. I would like to see the papers except for the publicity of it. I will be home this evening if you wish to telephone. Thanking you for your reading this letter

Sincerely
 Francis H. Hall.

P.S. I don't doubt but what you have either seen these papers or some one has told you about it.

J.H.H.
